

IS TO REPRESENT DISTRICT DAUGHTERS OF CONFEDERACY

Mrs. Maude Howell-Smith Off
Today for Convention at
San Francisco.

Will Look Out for Interests of
Eight Local Chapters and
Auxiliary.

MRS. MAUDE HOWELL-SMITH.

Mrs. Maude Howell-Smith of 1445 Massachusetts avenue northwest, president of the District branch of the United Daughters of the Confederacy, is to leave today for San Francisco to attend the twenty-fourth annual convention of the national organization. The convention is to begin with a public reception to be held the night of October 18. The business sessions, which probably will last about four days, will start the following morning.

Mrs. Howell-Smith will attend the convention as representative of eight chapters of the United Daughters of the Confederacy in the District of Columbia. They are: Stonewall Jackson Chapter, Robert E. Lee Chapter, Beauregard Chapter, Dixie Chapter, Albert Sidney Johnston Chapter, Southern Cross Chapter and Winnie Davis Chapter. There also is a children's auxiliary known as Mildred Lee Chapter.

Winnie Davis Chapter was organized three years ago, when the national convention of the United Daughters of the Confederacy was held in this city. It is generally referred to as the young people's chapter, its members being young women and its activities mostly of a social nature.

Mrs. Magnus Thompson of North Chevy Chase, president of Stonewall Jackson Chapter, was the founder of the first organization of the United Daughters of the Confederacy in the District.

To Raise Money for Home.
This winter the District chapters again will make an effort to raise as much money as possible to be applied to the debt on the Confederate Memorial Home, which has been established at 1322 Vermont avenue. Last year quite a sum was raised as the result of a series of dances and entertainments and the same program probably will be followed this winter. Other organizations which are aiding in the maintenance of the memorial home are

lots just in "look"; especially at times

Maine Woodsman Makes One Man's
Look the Climax of
Story.

Water and Witch Hazel Cocktail Is
What Made Looker Do the Eloquent Looking.

"And I wish you could see him look at me." Doesn't sound thrilling, or much like the climax to a story, does it? But Oh, what a lot of things there can be in a look—what untold grief and reproachfulness. And there must have been enough in the "look" referred to to make a climax to any yarn. Here is the story, as it flowed softly, evenly and unchecked from the lips of a Maine lumberman-farmer who was riding with a party of Washington "sports," which, in Maine parlance, means either hunters or fishermen, early last month. Their automobile had left them at a certain point in the region of Magalloway lake for a three-day trip into the woods. The colored chauffeur had been told to be back at the same spot on a certain morning and, at parting, the car's owner had said "Bring some friend with you on the front seat for the

"And I wish you could see him look at me."

ride." Therefore, when the appointed time came, this friend and temporary landlady of the driver, dressed up for a special occasion in Sunday "black," came aboard, cardinal and black mackinaw coat and checked golf cap, was occupying a place and engaged in grinning through the smoke of a long, bulbous, pale-tan cigar. His opening (and closing) for his story started with the motor and flowed evenly along with the Androscoggin river, words were:

Better Than Trout Fishing.
"Say, them's nice trout you got. I d'no as I ever saw a better mess, that is of late years; but you hain't hed as

Helena, Md., Victim
Helped Wonderfully

F. E. Reeder Thinks Remedy Is
Worth Weight in
Gold.

F. E. Reeder of Helena, Md., took Mary's Wonderful Remedy for disorders of the digestive tract. He had tried many remedies and was skeptical. The very first dose of this treatment convinced him. The results were astonishing. Mr. Reeder wrote: "Your remedy has helped me wonderfully. I have told a lot of people about your medicine and how it has helped me. It is worth its weight in gold. I will never be without it in my home. Mary's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and what you like. No more distress after eating. Pressure of gas in the stomach around the heart. Get one bottle of your drugstore now and try it on an absolute guarantee—if not satisfactory money will be returned.—Advertisement."

JOHN D. ROCKEFELLER, JR., TO START EAST TONIGHT

Spends Last Day of Three-Week Visit to Colorado in Conferences With Fuel and Iron Officials.

DENVER, October 9.—Final business conferences with officers of the Colorado Fuel and Iron Company, and preparations for his departure tonight for New York, occupied the last day of John D. Rockefeller, jr.'s, three-week visit to Colorado. Mr. Rockefeller called upon Mayor W. H. Sharpley to express appreciation for the friendly courtesies shown him by the people of Denver.

Mr. Rockefeller, addressing the chamber of commerce yesterday, eulogized his father as the "tenderest and most democratic of men."

Father's Good Will for Men.
"Criticism, maligned and condemned these many years, not only for his business success, but also because of his philanthropic endeavors, there is still not the slightest trace of bitterness in his character and he has nothing but good will for men," he said.

Referring to the many expressions of friendship during his stay in Colorado, Mr. Rockefeller said: "These I have accepted as intended for my father, whose representative I am. My father has been for many years a good friend of the state of Colorado."

New Hampshire Association Meeting
A meeting of the New Hampshire Association is to be held at 8 o'clock tomorrow evening at the W. C. T. U. headquarters, 522 6th street northwest.

The total mechanical power in the United States is estimated at 120,000,000 horsepower.

RULES FOR SERUM SHIPMENTS.

Secretary of Agriculture Issues More Regulations Regarding Viruses, Etc.
Additional regulations governing the preparation and shipment in interstate commerce of viruses, serums, toxins and analogous products intended for use in

the treatment of domestic animals have been promulgated by the Secretary of Agriculture. All anti-hog cholera serum and hog cholera virus shall from now on be prepared, labeled, stored, marked, treated and tested by establishments in accordance with methods prescribed by the chief of the bureau of animal industry. The bringing of animals exposed to communicable diseases on to the premises of a licensed establishment at which serum or virus is prepared is prohibited. The bringing of products of unlicensed establishments on to licensed premises also is forbidden.

It matters little what it is that you want—whether a situation or a servant—a want ad in The Star will reach the person who will fill your need.

SHOWN BY EXPERIMENTS.

Speed of Submarines Same Under Water as on Surface.
Experiments by Naval Architect Mason S. Chase in the naval experimental tank at the Washington navy yard have demonstrated that with the same

power the speed of a submarine under water is practically the same as on the surface. While there is an increased space-surface resistance in a submerged boat, there is on the surface the wave-making resistance, or the "bone" which takes about as much power to overcome. Lieut. C. N. Hinkamp, U. S. N., in a

paper on submarines, says the water is smoother underneath, and on that account some officers believe that, under certain conditions even better speed can be made underneath with the same power. In the early days a handmaster beat time with his foot. Not till 1830 was the baton first introduced.
